INDEX TO THE NEWS LETTER

<u>Vol. 1, No. 1, November, 1925.</u>		Page
Foreword -----		1
Concrete pavement construction -----		3
Grooved longitudinal joint formed by machine in Delaware concrete pavements, by R. F. Eastham -----		6
Expansion joint construction in New Jersey, by J. E. Mincher and Guy H. Miller -----		10
Report of Joint Board on Interstate Highways submitted to Secretary, by E. W. James -----		12
Interstate traffic on Federal-aid highways, by J. Gordon McKay --		13
Allotment of Federal aid on alternate-type projects -----		17
Permissible amendments of forest road contracts limited -----		18
Highway research news -----		19
Concrete pavement station marker, by J. T. Voshell -----		22
Relative costs of steel bridge spans carrying wood and concrete floors, by O. L. Grover -----		23
The authority of surety company agents -----		24
Suspensions and decisions of the Comptroller General -----		25
Projects not to be reopened for maintenance work -----		26
 <u>Vol. 1, No. 2, December, 1925.</u>		
The President's attitude on Federal-aid road building -----		1
Status of Federal-aid road construction funds. November 30, 1925 -		3
Report of Joint Board on Interstate Highways, by E. W. James ----		4
Recent developments in snow removal -----		5
Rural road status survey - 1924 income -----		9
Rural road status survey - 1924 disbursements -----		10
No shortage of Federal-aid funds in Texas -----		11
Mileage of existing roads in State highway systems - 1924 -----		12
Mileage of rural roads not in State systems - 1924 -----		13
Maintenance of Federal-aid roads in cities, by L. E. Boykin ----		14
Gasoline tax rates by States -----		16
Standard forest road bridge plans -----		17
Willite patent held invalid by Federal Court -----		18
Statistical data on highway finances of United States -----		20
John R. Chamberlin -----		21

<u>Vol. 1, No. 3, January, 1926.</u>	Page
Photograph of exhibit booth - United States Highways signs -----	1
Extract from a recent address of the Secretary of Agriculture ---	2
Photograph of exhibit booth - Financing Trunk Roads -----	3
Extract from Mr. MacDonald's Chicago address	
Highway Finance - Federal, State and Local -----	4
Mileage of Federal-aid roads completed -----	7
Photograph of exhibit booth - Highway Accidents -----	9
Progress of Federal highway legislation -----	10
Correction of gasoline tax rates -----	12
Photograph of exhibit booth - Railroad vs. Motor Transport -----	13
Apportionment of Federal aid to States - Fiscal years 1917-1927 -	14
United States Highways approved by 41 States -----	15
Brick test road now under traffic -----	16
Cable guard rail brackets suggested -----	16
Standard forest road bridge plans -----	17
Cook County Highway System Report to be ready soon -----	17
Photograph of exhibit booth - Efficient Concrete Mixing -----	20
An elaborate maintenance utility truck, by John D. Slye -----	21
Saturday afternoon meetings to be held in the headquarters office	22
New Bureau exhibit material -----	24
Photograph of exhibit booth - Subgrade Soils -----	25
Status of Federal-aid road construction funds, December 31, 1925-	26

<u>Vol. 1, No. 4, February, 1926.</u>	
Agreement between the Bureau and the National Park Service ----	1
Photograph of exhibit booth - Highway Expenditures -----	6
Thickness of concrete pavements tested by borings -----	7
Cable guard rail brackets -----	18
Bureau active in railroad grade crossing elimination -----	19
Rural road status survey - Local road and bridge income	
for 1924 -----	20
Rural road status survey - Local road and bridge disbursements	
for 1924-----	21
Proper method of making requests for supplies -----	22
Project statement data -----	23
Status of Federal-aid road construction funds -January 31,1926-	29
Progress of Federal highway legislation -----	30
Robert F. Eastham -----	32
Gross receipts from motor vehicle license fees and gasoline	
taxes -----	33
Appendix - Federal-aid highway system map - Revised	
October 31, 1925 ----	34

Vol. 1, No. 5, March, 1926.

Two unusual Federal-aid projects -----	11
Facilities of State highway testing laboratories -----	12
United States highways signs ordered by 17 States -----	13
The trend of concrete pavement design -----	14
A locally assembled air compressor, by E. L. Brown-----	16
Status of Federal-aid road construction funds - April 30, 1926 ---	18
Tensile strength requirements for cement may be increased -----	19
Outdoor Advertising Association of America -----	20
June meeting of the Committee on Tests and Investigations - A.A.S.H.O. -----	22
Federal-aid road apportionments and appropriations to May 11, 1926-	23
Progress of Federal highway legislation -----	24
Maryland and Bureau cooperating in concrete curing experiment ----	26
Bureau making field studies of subgrade soils -----	27
Chart for maximum sight distances on horizontal curves -----	28
Chart for maximum sight distances on vertical curves -----	29

Vol. 1, No. 8, June, 1926.

President defines constructive economy -----	1
Ruling on Federal aid in cities not listed in 1920 census -----	2
The motor truck impact tests -----	3
Status of paving brick studies -----	4
Status of Federal-aid road construction funds, May 31, 1926 -----	5
Studies of effectiveness of various concrete-pavement curing methods -----	6
Check tests of materials -----	7
Research workers join the Bureau for the summer -----	8
State highway bonds sold during 1925 -----	9
Original logged record maps completed -----	10
Under-water bucket for placing concrete in bridge pier, by John D. Slye -----	11
Twelve junior highway engineers receive temporary appointments ---	13
Decision of the Comptroller General -----	14
Maintenance costs in New York State for 1925 -----	15
Bureau exhibit at the National Sesqui-Centennial Exposition -----	16
Thickened-edge designs submitted for Federal-aid projects by 39 States -----	17
Subsistence expenses of civilian employees -----	18
Progress of Federal highway legislation -----	19
Mileage of State highways built to grade and surfaced in 1925 ----	20
Existing mileage in State highway systems at end of 1925 -----	21

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 3, 1801. It is a very important document, as it is the first time that the President has addressed the Congress since the establishment of the office. The letter is written in a very formal and dignified style, and it contains many important points. The President begins by expressing his gratitude to the Congress for the honor of electing him to the office. He then goes on to discuss the state of the Union, and the progress of the government. He mentions the peace with France, and the success of the Louisiana Purchase. He also discusses the state of the finances, and the progress of the military. The letter is a very important document, as it is the first time that the President has addressed the Congress since the establishment of the office.

2. The second part of the document is a letter from the President to the Congress, dated January 10, 1801. It is a very important document, as it is the second time that the President has addressed the Congress. The letter is written in a very formal and dignified style, and it contains many important points. The President begins by expressing his gratitude to the Congress for the honor of electing him to the office. He then goes on to discuss the state of the Union, and the progress of the government. He mentions the peace with France, and the success of the Louisiana Purchase. He also discusses the state of the finances, and the progress of the military. The letter is a very important document, as it is the second time that the President has addressed the Congress.

3. The third part of the document is a letter from the President to the Congress, dated January 17, 1801. It is a very important document, as it is the third time that the President has addressed the Congress. The letter is written in a very formal and dignified style, and it contains many important points. The President begins by expressing his gratitude to the Congress for the honor of electing him to the office. He then goes on to discuss the state of the Union, and the progress of the government. He mentions the peace with France, and the success of the Louisiana Purchase. He also discusses the state of the finances, and the progress of the military. The letter is a very important document, as it is the third time that the President has addressed the Congress.

4. The fourth part of the document is a letter from the President to the Congress, dated January 24, 1801. It is a very important document, as it is the fourth time that the President has addressed the Congress. The letter is written in a very formal and dignified style, and it contains many important points. The President begins by expressing his gratitude to the Congress for the honor of electing him to the office. He then goes on to discuss the state of the Union, and the progress of the government. He mentions the peace with France, and the success of the Louisiana Purchase. He also discusses the state of the finances, and the progress of the military. The letter is a very important document, as it is the fourth time that the President has addressed the Congress.

5. The fifth part of the document is a letter from the President to the Congress, dated January 31, 1801. It is a very important document, as it is the fifth time that the President has addressed the Congress. The letter is written in a very formal and dignified style, and it contains many important points. The President begins by expressing his gratitude to the Congress for the honor of electing him to the office. He then goes on to discuss the state of the Union, and the progress of the government. He mentions the peace with France, and the success of the Louisiana Purchase. He also discusses the state of the finances, and the progress of the military. The letter is a very important document, as it is the fifth time that the President has addressed the Congress.
